

ROE DEER HUNTING

- HUNTING IN EASTERN BERGSSLAGEN

Welcome to an exciting roe deer hunt in our well-stocked game forests located in the heart of eastern Bergslagen. As our hunting guest you are always at the centre, and our professional guides, together with service personnel and experienced hunting dogs, will do everything to ensure that you have a magnificent experience. You stay in traditional multi-bedded cabins directly adjacent to the hunting ground. Happy hunting!

Nickbergets Jakt- & Fiskecamp began operations in 2003. Our business concept is to offer memorable hunting and fishing adventures in scenic river valleys.

We have at our disposal 5,000 contiguous ha in Bergslagen with excellent hunting conditions and a well-managed stock of moose and roe deer, and good grouse hunting. We offer everything from large-scale corporate hunts to guided one-to-one hunting.

Day 1: The guests arrive at Nickbergets Jakt- och Fiskecamp, then check in to the cabins. We pay a visit to the shooting range to ensure that the weapons are in good shape after the journey. We devote the afternoon and evening to dinner together, along with information about the coming days' hunting.

Day 2: After an early breakfast, the hunt can begin. The hunting during the morning and afternoon/evening is a stone's throw from the camp and is planned to be highly varied, where you as the guest get to try stalking, stand hunting and still hunting. There is a break during the day for wilderness lunch served outdoors around a campfire. The evening is for trying the wood-heated sauna and then dinner.

Day 3-4: See day 2.

Day 5: We start the day with an early, tasty breakfast, after which we hunt during the first morning hours. Lunch together marks the end of the hunting here at Nickbergets Jakt- och Fiskecamp. We sum up the hunting days and get ready to return to our home destinations.
